

DEVINDI THARUDINI

SOFTWARE ENGINEER | UX DESIGNER

Email: devinditharudini07@gmail.com | Tel: +94 704958496 | LinkedIn: [linkedin.devindi](#) | Portfolio: [Portfolio](#)

PROFILE

Computer Science graduate with Second Class Honours from the University of Plymouth, with hands-on experience in software engineering, UX/UI design, and AI/ML development. Experienced in delivering end-to-end digital solutions from design and development to testing and deployment. Skilled in building user-focused applications, solving technical problems, and collaborating effectively with cross-functional teams in technology-driven environments. Committed to continuous learning and expanding knowledge in emerging technologies.

PROFESSIONAL EXPERIENCE

Trainee Software Engineer

Electricity Distribution Lanka (Private) Limited (EDL) | 15 December 2025 – 15 June 2026

Colombo, Sri Lanka | On-site

- Developed AI/ML features for an internal Learning Management System (LMS), including employee skill-level classification, personalized course recommendations, and AI-based quiz generation.
- Implemented and tested AI/ML functionality using Python, Scikit-learn, and Pandas.
- Redesigned and developed an Automated IT Service Desk, creating the UI in Figma and implementing the full-stack application using React.js, PHP, and MySQL.
- Built RESTful APIs and CRUD operations for ticket management, user management, and database operations.
- Implemented JWT authentication and role-based access control, including protected routes, token generation, and logout handling.
- Tested RESTful APIs using Postman and deployed the application with Nginx.

UI/UX Intern

Futura Solutions (Private) Limited | 08 December 2025 – 07 May 2026

Colombo, Sri Lanka | Remote

- Designed the complete UI for a 40+ screen POS system for a hardware retail business, covering inventory, sales, billing, customer, supplier, payment, reporting, returns, barcode scanning, and user management workflows.
- Conducted user research, created user flows and wireframes, and developed high-fidelity UI designs and interactive prototypes to improve usability.
- Collaborated with developers and the wider team during design discussions to resolve interface requirements and ensure design consistency.
- Used Figma, FigJam, Canva, and UX Pilot throughout the UX/UI design process.
- Collaborated with another UI/UX designer on EDaura, a gamified mobile and web learning platform for G.C.E. Advanced Level students across all streams.
- Contributed to approximately 50% of EDaura's product design, including user flows, wireframes, prototypes, design systems, reusable components, and responsive interfaces.
- Designed gamification features including points, levels, leaderboards, badges, quizzes, challenges, rewards, progress tracking, and competitions.

PROJECTS

Studyspot — AI-Based Learning System

- A personalized e-learning platform that adapts content based on student performance to improve engagement and learning outcomes.
- My Contribution: Led the end-to-end design and development of the system.
- Technologies: Figma, React.js, Firebase, TensorFlow.js, HTML, CSS

Elephant Pulse — Wildlife Safety Platform

- An IoT-based wildlife safety system designed to detect elephants near railway tracks using sensors and image processing to support real-time monitoring and reduce potential accidents.
- My Contribution: Designed the application UI and contributed to usability testing and improving data communication within the system.
- Technologies: Figma, Flutter (Dart), Python, OpenCV, Arduino, Firebase, GPS

Purple Palace — 3D Furniture E-Commerce Platform

- An interactive e-commerce platform that allows users to customize furniture and visualize furniture placement within a virtual 3D room.
- My Contribution: Designed the UI/UX and contributed to frontend development and usability improvements.
- Technologies: Figma, React.js, Three.js, JavaScript

SKILLS

UI/UX Design: Figma, FigJam, UX Pilot, Canva, User Research, User Flows, Wireframing, Prototyping

Frontend Development: React.js, JavaScript, HTML, CSS, Flutter (Dart)

Backend Development: PHP, Node.js, Express.js

AI/ML & Data: Python, Scikit-learn, Pandas

APIs & Authentication: RESTful APIs, Postman, JWT, CRUD Operations

Databases: MySQL, Firebase Realtime Database, Firestore

Development Tools: GitHub, Docker, Visual Studio Code, Google Colab, Jupyter Notebook

EDUCATION

BSc (Hons) Computer Science

University of Plymouth | 2022 – 2025
Second Class Honours

Advanced Certificate Course

NSBM Green University | 2022

G.C.E. Advanced Level

Physical Science Stream | English Medium | 2020

G.C.E. Ordinary Level

English Medium | 2017

LANGUAGES

Sinhala (Native)

English (Fluent)
